The purpose of this Satellite Symposium offered by the American Society of Hypertension, Inc. (ASH) is to raise awareness about the diverse set of clinical trials exploring the utility of renal denervation in the field of hypertension. This event is focused on the design and progress of trials in this developing area to provide a vantage point from which attendees can assess the potential utility of renal denervation.

Jointly supported by Boston Scientific, Medtronic, St Jude Medical, ReCor Medical, and Kona Medical.
